- 10.5.2 Each of the parties will, to the extent of their ability and in compliance with the FCA Regulations, ensure that the performance of their respective duties will not be impaired by any such involvement.

10.6 Depositary Conflicts of interest

- 10.6.1 The Depositary or any BNY Mellon Affiliates (which shall mean shall mean any entity in which The Bank of New York Mellon Corporation controls (directly or indirectly) an interest of no less than 30% in the voting stock or interests in such entity) may have an interest, relationship or arrangement that is in conflict with or otherwise material in relation to the services it provides to the ACD Company. Conflicts of interest may also arise between the Depositary's different clients.
- 10.6.2 As a global financial services provider, one of the Depositary's fundamental obligations is to manage conflicts of interest fairly and transparently. As a regulated business, the Depositary is required to prevent, manage and, where required, disclose information regarding any actual or potential conflict of interest incidents to relevant clients.
- 10.6.3 The Depositary is required to and does maintain and operate effective organisational and administrative arrangements with a view to taking all reasonable steps designed to prevent conflicts of interest from adversely affecting the interests of its clients.

 - (b) specifies the procedures or measures which should be followed or adopted by the Depositary in order to prevent or manage and report those conflicts of interest;
 - (c) sets out effective procedures to prevent or control the exchange of information between persons engaged in activities involving a risk of a conflict of interest where the exchange of that information may harm the interests of one or more clients;
 - (d) includes procedures to ensure the separate supervision of persons whose principal functions involve carrying out activities with or for clients and whose interests may

conflict, or who otherwise represent different interests that may conflict, including with the interests of the Depositary;

- (e) includes procedures to remove any direct link between the remuneration of individuals principally engaged in one activity and the remuneration of, or revenues generated by, different individuals principally engaged in another activity, where a conflict of interest may arise in relation to those activities;
- (f) specifies measures to prevent or limit any person from exercising inappropriate influence over the way in which an individual carries out investment or ancillary services or activities; and
- (g) sets out measures to prevent or control the simultaneous or sequential involvement of an individual in separate investment or ancillary services or activities where such involvement may impair the proper management of conflicts of interest.

10.6.5 The Conflicts Policy clarifies that disclosure of conflicts of interest to clients is a measure of last resort to be used by the Depositary to address its regulatory obligations only where the organisational and administrative arrangements established by the relevant firm to prevent or manage its conflicts of interest are not sufficient to ensure, with reasonable confidence, that the risks of damage to the interests of clients will be prevented.

10.6.6 The Depositary must assess and periodically review the Conflicts Policy at least once per annum and take all appropriate measures to address any deficiencies.

10.7 The Depositary undertakes that it shall make available to its competent authorities, on request, all information which it has obtained while performing its Services and which may be required by the competent authorities of the Company.

11 Buying, Selling and Switching Shares

The dealing office of the ACD is open from 9.00 am until 5.00 pm on each Dealing Day to receive requests for the issue, redemption and switching of Shares, which will be effected at prices determined at the next Valuation Point following receipt of such request by the relevant Cut-Off time.

11.1 Delivery versus Payment (DvP)

11.1.1 When you purchase Shares, there is a moment of time at which the investor now owns the Share; and a moment of time when the investor's money has passed to the ACD. Similarly when you sell a Share, there is a moment of time at which the investor no longer owns the Share; and a moment of time when the investor is credited with the value of that Share. As purchases and sales are not completed at exactly the same moment in real time (payment of cheques or bank transfers are not instantaneous), there is a small window of time (generally never more than one business day) when an investor might not own any units/shares, but may also not have the money instead. This is referred to as the 'Delivery versus Payment' (DvP) window. There is a small risk that at that point, the transaction might fail to complete and that an investor might lose the value of the investment.

11.1.2 The Financial Conduct Authority regulates for the protection of client money and requires firms such as the ACD to inform clients that the DvP exclusion for collective investment schemes is used. The DvP exclusion permits ACDs to not treat money as client money for a one-day period while carrying out a DvP transaction in the shares of a collective investment scheme. If the transaction takes longer than one working day to fully complete, i.e. money for

purchases is received early or money for sales remains on account at Margetts awaiting being paid out, then your money will be moved to a segregated client money account until the money is no longer yours (for purchases) or has been paid out by the ACD (for sales). In the unlikely event that Margetts enters into insolvency proceedings before it has segregated such purchase or sales monies as client money, or has applied proceeds for settlement or paid out monies due, then you may neither have any rights to the Shares nor be protected by the FCA's client money rules.

12 Buying Shares

12.1 Procedure

- 12.1.1 Shares can be bought by sending a completed application form to the ACD. Applications forms are available from the ACD at 1 Sovereign Court, Graham Street, Birmingham B1 3JR or telephoning 0345 607 6808.
- 12.1.2 The ACD has the right to reject, on reasonable grounds relating to the circumstances of the applicant, any application for Shares in whole or part, and in this event the ACD will return any money sent, or the balance of such monies, at the risk of the applicant. In addition the ACD may reject any application previously accepted in circumstances where the applicant has paid by cheque and that cheque subsequently fails to be cleared.
- 12.1.3 Any subscription monies remaining after a whole number of Shares has been issued will not be returned to the applicant. Instead, smaller denomination Shares (one-thousandth of a Share) will be issued in such circumstances.

12.2 Documentation

- 12.2.1 A contract note giving details of the Shares purchased and the price used will be issued by the end of the Dealing Day following the Valuation Point by reference to which the purchase price is determined, together with, where appropriate, a notice of the applicant's right to cancel.
- 12.2.2 Settlement is due four working days after the transaction date.
- 12.2.3 Title to the shares will pass to the Shareholder on the settlement date or when payment for them has irrevocably been received by the ACD.
- 12.2.4 The ACD may cancel the Shares issued corresponding to any subscription not paid for in full in accordance with these provisions, and the investor submitting the subscription will be liable to the relevant Sub-fund for any loss, costs or expenses incurred directly or indirectly in relation to such cancellation. Late settlement will include a charge for interest and other bank charges.
- 12.2.5 Share certificates will not be issued in respect of Shares. Ownership of Shares will be evidenced by an entry on the Company's Register of Shareholders. Statements in respect of periodic distributions of income in each Sub-fund will show the number of Shares held by the recipient in Sub-fund in respect of which the distribution is made. Individual statements of a shareholder's (or, when Shares are jointly held, the first named holder's) Shares will also be issued at any time on request by the registered holder.

12.3 In Specie Issue

- 12.3.1 The Depositary may take into the scheme property assets other than cash as payment for the issue of Shares but only if the Depositary has taken reasonable care to ensure that receipt or payment out of the property concerned would not be likely to result in any material prejudice to the interests of shareholders of the Company.

12.4 Minimum subscriptions and holdings

- 12.4.1 The minimum initial and subsequent subscription levels, and minimum holdings, for the Company are set out in Appendix 1. The ACD may at its discretion accept subscriptions lower than the minimum amount.
- 12.4.2 If a holding is below the minimum holding the ACD has discretion to require redemption of the entire holding.

13 Selling Shares

13.1 Procedure

- 13.1.1 Every shareholder has the right to require that the Company redeem their Shares on any Dealing Day unless the value of Shares which a shareholder wishes to redeem will mean that the shareholder will hold Shares with a value less than the required minimum holding for Sub-fund concerned, in which case the shareholder may be required to redeem their entire holding.
- 13.1.2 Requests to redeem Shares may be made to the ACD by telephone on 0345 607 6808 (followed up in writing) or in writing to the ACD at 1 Sovereign Court, Graham Street, Birmingham B1 3JR.

13.2 Documents the Seller will receive:

- 13.2.1 A contract note giving details of the number and price of Shares sold will be sent to the selling shareholder (the first named, in the case of joint shareholders) or their duly authorised agents together (if sufficient written instructions have not already been given) with a form of renunciation for completion and execution by the shareholder (and, in the case of a joint holding, by all the joint holders) not later than the end of the Dealing Day following the Valuation Point by reference to which the redemption price is determined. Cheques in satisfaction of the redemption monies will be issued within four Dealing Days or the later of:
- 13.2.2 Receipt by the ACD of the form of renunciation (or other sufficient written instructions) duly signed by all the relevant shareholders and completed as to the appropriate number of Shares, together with any other appropriate evidence of title; and
- 13.2.3 The Valuation Point following receipt by the ACD of the request to redeem.
- 13.2.4 Payments made by cheque will be sent by post to the last address notified by the shareholder to the ACD. It will be deemed to be received on the second day after posting. The ACD will not be responsible if the mailing is delayed except where as a result of the ACD's negligence. If the mailing goes astray or is intercepted the ACD reserves the right to fully investigate what has happened and will have no obligation to remit a second payment to the shareholder until satisfied with the results of the investigation.

13.2.5 Where the redemption proceeds are to be paid by telegraphic transfer, the ACD will make the payment to the bank account details last notified to the ACD. The redemption proceeds will be sent at the risk of the shareholder and the ACD will not be responsible if the telegraphic transfer is delayed, unless this is as a result of the ACD's negligence. The ACD reserves the right to fully investigate what has happened and will have no obligation to remit a second payment to the shareholder until satisfied with the results of the investigation.

13.3 Minimum redemption

13.3.1 Part of a shareholder's holding may be sold but the ACD reserves the right to refuse a redemption request if the value of the Shares of any Sub-fund to be redeemed is less than any minimum redemption amount set out in Appendix 1 or would result in a shareholder holding less than the minimum holding for a Sub-fund, as detailed in Appendix 1.

13.4 In Specie Redemption

13.4.1 If a shareholder requests the redemption or cancellation of Shares, the ACD may, if it considers the deal substantial in relation to the total size of the Sub-fund concerned, arrange for the Company to cancel the Shares and transfer Scheme Property to the shareholder instead of paying the price of the Shares in cash, or, if required by the shareholder, pay the net proceeds of sale of the relevant Scheme Property to the shareholder. A deal involving Shares representing 5% or more in value of a Sub-fund will normally be considered substantial, although the ACD may in its discretion agree an in specie redemption with a shareholder whose Shares represent less than 5% in value of the Sub-fund concerned.

13.4.2 Before the proceeds of cancellation of the Shares become payable, the ACD will give written notice to the shareholder that scheme Property (or the proceeds of sale of that Scheme Property) will be transferred to that shareholder.

13.4.3 The ACD will select the property to be transferred (or sold) in consultation with the Depositary. They must ensure that the selection is made with a view to achieving no greater advantage or disadvantage to the redeeming shareholder than to continuing shareholders, and any such redemption as set out above, shall be subject to a retention by the Company from that property (or proceeds) the value (or amount) of any stamp duty reserve tax to be paid on the cancellation of Shares.

13.5 Direct Issue or Cancellation of Shares by the Company through the ACD

13.5.1 Shares are issued or cancelled by the ACD making a record of the issue or cancellation and of the number of Shares of each class concerned.

13.6 Transfer of Title Through Electronic Communication

13.6.1 The ACD accepts transfer of title authority by electronic communication via TISA Exchange Limited (TeX).

14 Switching and Conversions

14.1 Switching

14.1.1 If applicable, a holder of Shares may at any time switch all or some of their Shares ("Old Shares") for shares of another Sub-fund ("New Shares"). The number of New Shares issued will be determined by reference to the respective prices of New Shares and Old Shares at the

Valuation Point applicable at the time the Old Shares are repurchased and the New Shares are issued.

- 14.1.2 Switching may be effected either by telephone on 0345 607 6808 or in writing to the ACD (at the address referred to in Section 13.1.2) and the shareholder may be required to complete a switching form (which, in the case of joint shareholders must be signed by all the joint holders). A switching shareholder must be eligible to hold the Shares into which the switch is to be made.
- 14.1.3 The ACD may at its discretion charge a fee on the switching of Shares between Classes. These fees are set out in Section 30.1.1.19.
- 14.1.4 If the switch would result in the shareholder holding a number of Old Shares or New Shares of a value which is less than the minimum holding in the Sub-fund concerned, the ACD may, if it thinks fit, convert the whole of the applicant's holding of Old Shares to New Shares or refuse to effect any switch of the Old Shares. No switch will be made during any period when the right of shareholders to require the redemption of their Shares is suspended (as to which see Section 19 below). The general provisions on selling Shares shall apply equally to a switch.
- 14.1.5 The ACD may adjust the number of New Shares to be issued to reflect the imposition of any switching fee together with any other charges or levies in respect of the issue or sale of the New Shares or repurchase or cancellation of the Old Shares as may be permitted pursuant to the FCA Regulations.
- 14.1.6 Please note that, under current tax law, a switch of shares in one Sub-fund for shares in any other Sub-fund is treated as a redemption and sale and will, for persons subject to United Kingdom taxation, be a realisation for the purposes of capital gains taxation although a switch of shares between different Share Classes in the same Sub-fund will not be deemed to be a realisation for the purposes of capital gains taxation.
- 14.1.7 A shareholder who switches shares in one Sub-fund for shares in any other Sub-fund will not be given a right by law to withdraw from or cancel the transaction.

14.2 Conversions

- 14.2.1 A holder of Shares in a Sub-fund may convert all or some of their Shares (“Original Class Shares”) for shares in another Share Class (“New Class Shares”) of the same Sub-fund, subject to meeting the minimum requirements for the Share Class into which the Conversion is to be made.
- 14.2.2 Conversions may be effected either by telephone on 0345 607 6808 or in writing to the ACD (at the address referred to in Section 13.1.2) and the shareholder may be required to complete a conversion form (which, in the case of joint shareholders must be signed by all the joint holders). A converting shareholder must be eligible to hold the Shares into which the conversion is to be made. Conversions will be effected by the ACD recording the change of Class on the Register. A confirmation letter showing details of the Conversion will be sent to the Shareholder on the business day following completion of the transaction.
- 14.2.3 Conversions will be effected at the next Valuation Point following receipt of instruction from a shareholder to convert or at a date mutually agreed between the ACD and the shareholder(s).

- 14.2.4 The number of New Class Shares issued will be determined by reference to the respective prices of Original Class Shares and New Class Shares at the Valuation Point applicable at the time the Conversion takes place.
- 14.2.5 The shareholder must meet any relevant minimum investment or holding criteria in respect of the Shares in the Share Class into which the Conversion is to be made. If the Conversion would result in the shareholder holding a number of Original Class Shares or New Class Shares of a value which is less than the minimum holding in the Share Class concerned, the ACD may, if it thinks fit, convert the whole of the applicant's holding of Original Class Shares to New Class Shares or refuse to effect the relevant Conversion of the Original Class Shares. No Conversion will be made during any period when the right of shareholders to require the sale of their Shares is suspended.
- 14.2.6 The ACD may adjust the number of New Class Shares to be issued or converted to reflect the imposition of any charges or levies in respect of the issue of New Class Shares or the Conversion of Original Class Shares as may be permitted in accordance with COLL.
- 14.2.7 The ACD may, at its discretion, charge a fee on the Conversion of Shares between Share Classes as described further below. These fees are set out in Section 30.1.1.19.
- 14.2.8 Please note that, under current United Kingdom taxation law and guidance, a Conversion of shares between different Share Classes within the same Sub-fund will generally not be treated by HM Revenue & Customs as a redemption and sale and will therefore generally not be a disposal for capital gains tax purposes for investors subject to United Kingdom taxation. However, please note that in certain limited circumstances, an exchange between Share Classes within the same Sub-fund may be classified as a Switch (for more information on Switches, see above under the heading "Switching") and may be treated differently for the purposes of capital gains taxation and income equalisation may be applicable.
- 14.2.9 Conversions will not generally be subject to income equalisation as referred to in Section 38 of this Prospectus. Please note that by performing a Conversion, the ACD may be required to convert a portion of capital to income in order to match the relevant yield in the Share Class into which the shareholder is Converting. This may have the effect of creating taxable income for persons subject to United Kingdom taxation (depending upon the shareholder's individual circumstances).
- 14.2.10 In certain circumstances the ACD may (accepting no obligation to do so), at its discretion, undertake compulsory Conversion of Share Classes to new or different Share Classes open to one or more type of retail or institutional client subject to the clients' best interest rule. Such circumstances may include, but shall not be limited to; ensuring compliance with law and/or regulation, changing to new Share Classes to reflect changes in law and/or regulation or the offering of new or replacement Share Classes in any Sub-fund.
- 14.2.11 The ACD may, at its discretion, undertake compulsory Conversion of Share Classes where a shareholder's investment holding falls below the minimum holding threshold for the Share Class in question as set out in Appendix 1. The ACD may convert a shareholders interest into another Share Class for which the minimum holding is met, which may result in higher charges where the receiving Share Class has higher charges as set out in Appendix 1.

15 Dealing Charges

15.1 Preliminary Charge

15.1.1 The ACD may impose a charge on the sale of Shares to investors which is based on the amount invested by the prospective investor. The preliminary charge is payable to the ACD. Full details of the current preliminary charge for each class of Share in each Sub-fund are set out in Appendix 1.

15.2 Redemption Charge

15.2.1 The ACD may make a charge on the redemption of Shares. At present no redemption charge is levied.

15.2.2 The ACD may not introduce a redemption charge on Shares unless, not less than 60 days before the introduction, it has given notice in writing to the then current Shareholders of that introduction and has revised and made available the Prospectus to reflect the introduction and the date of its commencement. If charged, the redemption charge will be deducted from the price of the Shares being redeemed and will be paid by the Company to the ACD.

15.2.3 In the event of a change to the rate or method of calculation of a redemption charge, details of the previous rate or method of calculation will be available from the ACD.

15.3 Switching Fee

15.3.1 On the switching of Shares of a Sub-fund for Shares of another Sub-fund the Instrument of Incorporation authorises the Company to impose a switching fee. Full details of the current switching fee are set out in Section 30.1.1.19. The switching fee is payable to the ACD.

16 Other Dealing Information

16.1 Dilution Adjustment

16.1.1 The basis on which the Company's investments are valued for the purpose of calculating the issue and redemption price of Shares as stipulated in the FCA Regulations and the Company's Instrument of Incorporation is summarised in Section 22. The actual cost of purchasing or selling a Sub-fund's investments may be higher or lower than the mid market value used in calculating the share price - for example, due to dealing charges, or through dealing at prices other than the mid-market price. Under certain circumstances (for example, large volumes of deals) this may have an adverse effect on the shareholders' interest in a Sub-fund. In order to mitigate this effect, called "dilution", the ACD has the power to apply a "dilution adjustment", as defined in the FCA Rules on the issue and/or redemption of Shares in a Sub-fund. A dilution adjustment is an adjustment to the share price. The ACD shall comply with the FCA Regulations in its application of any such dilution adjustment.

16.1.2 The dilution adjustment for each Sub-fund will be calculated by reference to the estimated costs of dealing in the underlying investments of that Sub-fund, including any dealing spreads, commission and transfer taxes.

16.1.3 The need to apply a dilution adjustment will depend on the volume of sales (where they are issued) or redemptions (where they are cancelled) of shares. The ACD may apply a dilution adjustment on the issue and redemption of such Shares if, in its opinion, the existing

shareholders (for sales) or remaining shareholders (for redemptions) might otherwise be adversely affected, and if applying a dilution adjustment, so far as practicable, it is fair to all shareholders and potential shareholders. In particular, the dilution adjustment may be applied in the following circumstances:

- 16.1.3.1 where over a dealing period the Sub-fund has experienced a large level of net sales or redemptions relative to its size (i.e. net redemptions equivalent to equal or greater than 0.5% of the Net Asset Value of the Sub-fund);
- 16.1.3.2 on “large deals”. For these purposes, a large deal means a deal worth 0.5% or more of the Net Asset Value of the Sub-fund.
- 16.1.4 Where the ACD considers it necessary to protect the interests of the shareholders of the Sub-fund (for example, where the Sub-fund is in continuing decline as a result of poor market conditions or continual net redemptions).
- 16.1.5 The amount of any dilution adjustment is not retained by the ACD but is paid into the Sub-fund.
- 16.1.6 Since dilution is directly related to the inflows and outflows of monies to and from a Sub-fund, it is not possible to accurately predict whether dilution will occur or what dilution adjustment might be made. However, the ACD expects that a dilution adjustment may be required if there are strong inflows in which case the dilution adjustment will increase the price of the Shares. If there are net outflows the dilutions adjustment will reduce the price of the Shares.
- 16.1.7 If it does occur, it is therefore not possible to predict the amount of dilution adjustment required. If a dilution adjustment is not charged then this may restrict the future growth of the Sub-fund. In current market conditions the ACD does not expect that a dilution adjustment above 5% would be applied. This figure is based on future projections.
- 16.1.8 The ACD reserves the right not to impose a dilution adjustment in exceptional circumstances where it would, in its opinion, not be in the interests of Shareholders to do so. The ACD’s decision on whether or not to make this adjustment, and at what level this adjustment might be made in a particular case or generally, will not prevent it from making a different decision on future similar transactions.

16.2 The ACD Dealing as Principal

- 16.2.1 Where the ACD deals as principal in the Shares of the Company, any profits or losses arising from such transactions shall accrue to the ACD and not to the relevant Sub-fund of the Company.
- 16.2.2 The ACD is under no obligation to account to the Depositary, or to Shareholders for any profit it makes on the issue or reissue of Shares or cancellation of Shares which it has redeemed.

17 Money Laundering

- 17.1 As a result of legislation in force in the United Kingdom to prevent money laundering, persons conducting investment business are responsible for compliance with money laundering regulations. In order to implement these procedures, in certain circumstances investors may be asked to provide proof of identity when buying Shares. The ACD reserves

the right to reverse the transaction or to refuse to sell Shares if it is not satisfied as to the identity of the applicant.

18 Restrictions Compulsory Transfer and Deferred Redemption

18.1 The ACD may from time to time impose such restrictions as it may think necessary for the purpose of ensuring that no Shares are acquired or held by any person in breach of the law or governmental regulation (or any interpretation of a law or regulation by a competent authority) of any country or territory or which would result in the Company incurring any liability to taxation which the Company is not able to recoup itself or suffering any other adverse consequence. In this connection, the ACD may, inter alia, reject in its discretion any application for the purchase, redemption, transfer or switching of Shares.

18.1.1 If it comes to the notice of the ACD that any Shares (“affected Shares”):

- a) are owned directly or beneficially in breach of any law or governmental regulation (or any interpretation of a law or regulation by a competent authority) of any country or territory; or
- b) would result in the Company incurring any liability to taxation which the Company would not be able to recoup itself or suffering any other adverse consequence (including a requirement to register under any securities or investment or similar laws or governmental regulation of any country or territory); or
- c) are held in any manner by virtue of which the Shareholder or shareholders in question is/are not qualified to hold such Shares or if it reasonably believes this to be the case; or
- d) are owned by a shareholder who is registered in a jurisdiction (where a Sub-fund is not registered or recognised by the relevant competent authority) whereby communication with that Shareholder by the ACD, on behalf of the Sub-fund, might constitute a breach of the regulations in that jurisdiction (unless specific action is taken by the ACD to prevent such a communication constituting a breach)
- e) or if the ACD is not satisfied that any Shares may not give rise to a situation discussed in (a), (b), (c) or (d), the ACD may give notice to the shareholder(s) of the affected Shares requiring the transfer of such Shares to a person who is qualified or entitled to own them or that a request in writing be given for the redemption of such Shares in accordance with the COLL Sourcebook. If any Shareholder upon whom such a notice is served does not within 30 days after the date of such notice transfer their affected Shares to a person qualified to own them or submit a written request for their redemption to the ACD or establish to the satisfaction of the ACD (whose judgement is final and binding) that they or the beneficial owner is qualified and entitled to own the affected Shares, they shall be deemed upon the expiry of that 30 day period to have given a request in writing for the redemption or cancellation (at the discretion of the ACD) of all the affected Shares.

This may include a situation which a shareholder has moved to a different jurisdiction which either does or may give rise to a situation described in (a), (b), (c) or (d) above.

18.1.2 It is not possible for the ACD to be fully informed of current law and regulations in every jurisdiction and accordingly in the interests of shareholders and to be able to ensure no Shares are held or acquired by any person in breach of the law or governmental regulation (or any

interpretation of a law or regulation by a competent authority) of any country or territory or which would result in any Sub-fund incurring any liability to taxation which a Sub-fund is not able to recoup itself or suffering any other adverse consequence. The ACD's policy will be to treat Shares of shareholders moving to jurisdictions other than the UK and EEA States as affected Shares and may refuse to issue Shares to anyone resident outside of one of the jurisdictions.

- 18.1.3 A shareholder who becomes aware that they are holding or own affected Shares shall immediately, unless they have already received a notice as set out above, either transfer all their affected Shares to a person qualified to own them or submit a request in writing to the ACD for the redemption of all their affected Shares.
- 18.1.4 Where a request in writing is given or deemed to be given for the redemption of affected Shares, such redemption will (if effected) be effected in the same manner as provided for in the COLL Sourcebook.

18.2 Deferred Redemption

- 18.2.1 The ACD may defer redemptions at a particular Valuation Point to the next Valuation Point where the requested redemptions exceed 10% of a Sub-fund's value. The ACD will ensure the consistent treatment of all holders who have sought to redeem Shares at any Valuation Point at which redemptions are deferred. The ACD will pro-rata all such redemption requests to the stated level (ie. 10% of the Sub-fund's value) and will defer the remainder until the next Valuation Point. The ACD will also ensure that all deals relating to an earlier Valuation Point are completed before those relating to a later Valuation Point are considered.

19 Suspension of Dealings in the Company

- 19.1 The ACD may, with the prior agreement of the Depositary or shall, if the Depositary so requires, temporarily suspend the issue, cancellation, purchase and redemption of Shares in any or all of the Sub-funds where due to exceptional circumstances it is in the interest of all of the Shareholders.
- 19.2 On suspension, the ACD, or the Depositary if it has required the ACD to suspend dealings in Shares, must immediately inform the FCA, stating the reason for its action and as soon as practicable give written confirmation to the FCA of the suspension and the reasons for it.
- 19.3 The ACD must ensure that a notification of the suspension is made to Shareholders as soon as practicable after suspension commences. The ACD must ensure that it:
 - a) draws Shareholders' particular attention to the exceptional circumstance which resulted in the suspension;
 - b) is clear, fair and not misleading; and
 - c) informs Shareholders how to obtain sufficient details (either through the Company's website or by other general means) about the suspension including, if known, its likely duration.
- 19.4 The ACD and the Depositary must formally review the suspension at least every 28 days and inform the FCA of the result of this review with a view to ending the suspension as soon as practicable after the exceptional circumstances have ceased.

- 19.5 Re-calculation of the shareprice for the purpose of sales and purchases will commence on the next relevant valuation point following the ending of the suspension.

20 Governing Law

- 20.1 All deals in shares are governed by English law.

21 Valuation of the Company

- 21.1 The price of a share in the Company is calculated by reference to the Net Asset Value of the Sub-fund to which it relates. There is only a single price for any share as determined from time to time by reference to a particular Valuation Point. The Net Asset Value per share of a Sub-fund is currently calculated at 08.30 am on each Dealing Day.
- 21.2 The ACD may at any time during a Dealing Day carry out an additional valuation if the ACD considers it desirable to do so.

22 Calculation of the Net Asset Value

- 22.1 The value of the Scheme Property of the Company or of a Sub-fund (as the case may be) shall be the value of its assets less the value of its liabilities determined in accordance with the following provisions.
- 22.2 All the Scheme Property (including receivables) of the Company (or the Sub-fund) is to be included, subject to the following provisions.
- 22.3 Scheme Property which is not cash (or other assets dealt with in Section 22.4) or a contingent liability transaction shall be valued as follows:
- 22.3.1 units or shares in a collective investment scheme:
- 22.3.1.1 if a single price for buying and selling units/shares is quoted, at the most recent such price; or
 - 22.3.1.2 if separate buying or selling prices are quoted, at the average of the two prices provided the buying price has been reduced by any preliminary charge included therein and the selling price has been increased by any exit or redemption charge attributable thereto; or
 - 22.3.1.3 if no price or no recent price exists, at a price which in the opinion of the ACD is fair and reasonable;
- 22.3.2 any other transferable security:
- 22.3.2.1 if a single price for buying and selling the security is quoted, at that price; or
 - 22.3.2.2 if separate buying and selling prices are quoted, the average of those two prices; or

- 22.3.2.3 if, in the opinion of the ACD, the price obtained is unreliable or no recent traded price is available or if no price exists, at a value which in the opinion of the ACD reflects a fair and reasonable price for that investment;
- 22.3.3 property other than that described in 21.3.1 and 21.3.2 above:
 - 22.3.3.1 at a value which, in the opinion of the ACD, represents a fair and reasonable mid-market price.
- 22.4 Cash and amounts held in current and deposit accounts and in other time-related deposits shall be valued at their nominal values.
- 22.5 Property which is a contingent liability transaction shall be treated as follows:
 - 22.5.1 if it is a written option (and the premium for writing the option has become part of the Scheme Property), the amount of the net valuation of premium receivable shall be deducted.
 - 22.5.2 if it is an off-exchange future, it will be included at the net value of closing out in accordance with a valuation method agreed between the ACD and the Depositary;
 - 22.5.3 if the property is an off-exchange derivative, it will be included at a valuation method agreed between the ACD and Depositary;
 - 22.5.4 if it is any other form of contingent liability transaction, it will be included at the net value of margin on closing out (whether as a positive or negative value).
- 22.6 In determining the value of the Scheme Property, all instructions given to issue or cancel Shares shall be assumed to have been carried out (and any cash paid or received) whether or not this is the case.
- 22.7 Subject to paragraphs 22.8 and 22.9 below, agreements for the unconditional sale or purchase of property which are in existence but uncompleted shall be assumed to have been completed and all consequential action required to have been taken. Such unconditional agreements need not be taken into account if made shortly before the valuation takes place and, in the opinion of the ACD, their omission will not materially affect the final net asset amount.
- 22.8 Futures or contracts for differences which are not yet due to be performed and unexpired and unexercised written or purchased options shall not be included under paragraph 22.7.
- 22.9 All agreements are to be included under paragraph 22.7 which are, or ought reasonably to have been, known to the person valuing the property.
- 22.10 An estimated amount for anticipated tax liabilities at that point in time including (as applicable and without limitation) capital gains tax, income tax, corporation tax and advance corporation tax and value added tax will be deducted.
- 22.11 An estimated amount for any liabilities payable out of the Scheme Property and any tax thereon treating periodic items as accruing from day to day will be deducted.
- 22.12 The principal amount of any outstanding borrowings whenever repayable and any accrued but unpaid interest on borrowings will be deducted.
- 22.13 An estimated amount for accrued claims for tax of whatever nature which may be recoverable will be added.

- 22.14 Any other credits or amounts due to be paid into the Scheme Property will be added.
- 22.15 A sum representing any interest or any income accrued due or deemed to have accrued but not received will be added.
- 22.16 Currency or values in currencies other than the base currency shall be converted at a rate of exchange that is not likely to result in any material prejudice to the interests of shareholder or potential shareholders.
- 22.17 Where the ACD has reasonable grounds to believe that:
- 22.17.1 no reliable price exists for a security (including a unit/share in a collective investment scheme) at a valuation point; or
- 22.17.2 the most recent price available does not reflect the ACD's best estimate of the value of the security (including a unit/share in a collective investment scheme) at the Valuation Point;
- 22.17.3 it can value an investment at a price which, in its opinion, reflects a fair and reasonable price for that investment (the fair value price). The circumstances which may give rise to a fair value price being used include:
- 22.17.4 no recent trade in the security concerned; or
- 22.17.5 suspension of dealings in an underlying collective investment scheme;
- 22.17.6 the occurrence of significant movements in the markets in which the underlying collective investment schemes are invested since the last valuation point; or
- 22.17.7 the occurrence of a significant event since the most recent closure of the market where the price of the security is taken.
- 22.17.8 In determining whether to use such a fair value price, the ACD will include in their consideration but need not be limited to the type of authorised Fund concerned, the securities involved; whether the underlying collective investment schemes may already have applied fair value pricing; the basis and reliability of the alternative price used; and the ACD's policy on the valuation of Scheme Property as disclosed in this Prospectus.

23 Price per Share in the Sub-fund and each Class

- 23.1 The price per Share at which Shares are sold is the sum of the Net Asset Value of a Share and any preliminary charge. The price per Share at which Shares are redeemed is the Net Asset Value per Share less any applicable redemption charge. In addition, there may, for both purchases and sales, be a dilution adjustment as described in Section 16 above.

24 Pricing basis

- 24.1 The Company deals on a forward pricing basis. A forward price is the price calculated at the next Valuation Point after the sale or redemption is agreed.

25 Publication of Prices

- 25.1 The most recent price of Shares will be published on the Margetts website and various on-line data agencies. They will also be available by telephoning the ACD on 0345 607 6808 and on its website: <https://www.mgtsfunds.com>.

26 Risk factors

All investments in the Company involve risk. The risks set out below refer to the main risks factors for each Sub-fund. "General" risks are those risks applicable to all Sub-funds. "Specific Risks" are particularly relevant as defined under the investment objective and policy for each Sub-fund. Potential investors should consider the following risk factors before investing in the Company:

26.1 General

- 26.1.1 An investment in one or more of the Sub-funds will involve exposure to those risks normally associated with investment in fixed interest securities, stocks and shares. As such, the price of shares and the income from them can go down as well as up and an investor may not get back the amount they invested. There is no assurance that investment objectives of any Sub-fund will actually be achieved. The ACD does not guarantee any yield or return on capital in any Sub-fund.

- a) In addition, the values, in the base currency denomination of each Share Class, of investments that are not denominated in the base currency of the Share Class, may rise and fall purely on account of exchange rate fluctuations, which will have a related effect on the price of Shares.
- b) Shares in all the Sub-funds should generally be regarded as long-term investments. Details of specific risks that apply to particular Sub-funds are set out in Appendix 1.
- c) Charges in respect of certain Sub-funds may be taken against capital rather than income. This may constrain capital growth of the Sub-fund in question and will be detailed in Appendix 1 if applicable.
- d) Where a preliminary charge or a redemption charge is imposed, a shareholder who realises their Shares may not (even where there has been no fall in the value of underlying investments) realise the amount originally invested.
- e) Where no dilution adjustment is charged to investments in or out of a Sub-fund the effect of these purchases or sales could have a dilution effect on the Sub-fund which may reduce performance.

26.2 Counterparty and Settlement

- 26.2.1 The Sub-funds will be exposed to credit risk on parties with whom it trades and will also bear the risk of settlement default.

26.3 Custody

- 26.3.1 There may be a risk of loss where the assets of the Sub-fund are held in custody that could result from the insolvency, negligence or fraudulent action of a custodian or sub-custodian.

26.4 Currency Exchange Rates

- 26.4.1 Currency fluctuations may adversely affect the value of a Sub-fund's investments and the income thereon and, depending on a shareholder's currency of reference, currency

fluctuations may reduce investment gains or income, or increase investment losses, in some cases significantly.

26.5 **Inflation and Interest Rates**

26.5.1 The real value of any returns that an investor may receive from the Sub-fund could be affected by interest rates and inflation over time. If inflation falls or remains low, the yields on short-term inflation-linked securities will fall or remain low.

26.6 **Liquidity**

26.6.1 In certain circumstances a Sub-fund may be invested in assets which cannot be liquidated in a timely manner at a reasonable price. This may impact the value of Shares in a Sub-fund and the ability to redeem.

26.7 **Management Risk**

26.7.1 A Sub-fund may be subject to management risk because it is an actively managed investment fund. When managing a Sub-fund and applying investment techniques and risk analyses, the Investment Manager's assessment of market or economic trends, their choice or design of any software models they use, their allocation of assets, or other decisions regarding how the Sub-fund's assets will be invested cannot be guaranteed to ensure returns on investments.

26.8 **Market Risk**

26.8.1 Prices and yields of many securities can change frequently and can fall based on a wide variety of factors. Examples of these factors include:

- a) Political and economic news;
- b) Government policy;
- c) Changes in technology and business practice;
- d) Changes in demographics, cultures and populations;
- e) Natural or human-caused disasters;
- f) Weather and climate patterns;
- g) Scientific or investigative discoveries; and
- h) Costs and availability of energy, commodities, and natural resources.

26.8.2 The effects of market risk can be immediate or gradual, short term or long-term, narrow or broad. This risk can apply to both the design and operation of computer models and can apply whether a model is used to support human decision-making or to directly generate trading recommendations. Flaws in software programmes can go undetected for long periods of time.

26.9 **Operational Risk**

26.9.1 The operations of the Sub-fund could be subject to human error, faulty processes or governance, or technological failures. Operational risks may subject the Sub-fund to errors affecting valuation, pricing, accounting, tax reporting, financial reporting, custody and trading, among other things. Operational risks may go undetected for long periods of time, and even if they are detected it may prove impractical to recover prompt or adequate compensation from those responsible.

26.10 **Regulatory and Government Policy**

26.10.1 The laws that govern the Sub-fund may change in future. Any such changes may not be in the best interest of the Sub-fund and may have a negative impact on the value of your investment.

26.11 Single Swinging Price - Impact on Sub-fund Value and Performance

25.11.1 The Company has a single swinging price. The single price can be swung up or down in response to inflows or outflows from the Company, in order to protect investors from the effect of dilution. Dilution occurs where the Company is forced to incur costs as a result of the Investment Manager buying or selling assets following inflows or outflows. A change to the pricing basis will result in a movement to the Company's published price and reported investment performance.

26.12 Suspension and Termination

26.12.1 Investors should note that in exceptional circumstances, the ACD may, after consultation with the Depositary, suspend the issue, cancellation, sale and redemption (including switching) of Shares in any and all Sub-funds and Shares Classes.

26.13 Taxation

26.13.1 Taxation laws and rates may change over time and could affect the value of investments in the Sub-fund and of the Shares in the Sub-fund. See Section 37 for further details about taxation of the Sub-fund.

26.14 Cancellation Rights

26.14.1 Where cancellation rights are applicable, if shareholders choose to exercise their cancellation rights and the value of their investment falls before notice of cancellation is received by the ACD in writing, a full refund of the original investment may not be provided but rather the original amount less the fall in value.

26.15 Shareholder's rights against service providers

26.15.1 The Company relies on the performance of third party service providers, including the ACD, the Depositary, the Investment Manager and the Auditor. Further information in relation to the roles of the service providers is set out in this prospectus.

26.15.2 No Shareholder shall have any direct contractual claim against any service provider with respect to such service provider's default. Any Shareholder who believes they may have a claim against any service provider in connection with their investment in a Sub-fund, should consult their legal adviser.

26.16 Dilution Provisions Risk

25.16.1 In certain circumstances a dilution adjustment may be made on the purchase or redemption of Shares. In the case of purchases this will reduce the number of Shares acquired, in the case of redemptions this will reduce the proceeds. Where a dilution adjustment is not made, existing investors in the Sub-fund in question may suffer dilution which will constrain capital growth.

26.17 Suspension of Dealings in Shares Risk

26.17.1 Investors are reminded that in certain circumstances their right to redeem Shares (including a redemption by way of switching) may be suspended.

26.18 Specific Risks

26.19 Emerging Markets

26.19.1 Where Sub-funds invest in some overseas markets these investments may carry risks associated with failed or delayed settlement of market transactions and with the registration and custody of securities.

26.19.2 Investment in emerging markets may involve a higher than average risk.

26.19.3 Investors should consider whether or not investment in such Sub-funds is either suitable for or should constitute a substantial part of an investor's portfolio.

26.19.4 Companies in emerging markets may not be subject:

- a) to accounting, auditing and financial reporting standards, practices and disclosure requirements comparable to those applicable to companies in major markets;
- b) to the same level of government supervision and regulation of stock exchanges as countries with more advanced securities markets.

26.19.5 Accordingly, certain emerging markets may not afford the same level of investor protection as would apply in more developed jurisdictions.

- a) Restrictions on foreign investment in certain securities may be imposed on certain Sub-funds and as a result, may limit investment opportunities for the Sub-funds. Substantial government involvement in, and influence on, the economy may affect the value of securities in certain emerging markets.
- b) The reliability of trading and settlement systems in some emerging markets may not be equal to that available in more developed markets, which may result in delays in realising investments.

26.19.6 Lack of liquidity and efficiency in certain of the stock markets or foreign exchange markets in certain emerging markets may mean that from time to time the ACD may experience more difficulty in purchasing or selling holdings of securities than it would in a more developed market.

26.20 Derivatives

26.20.1 The Sub-funds may invest in derivatives and forward transactions for hedging purposes to reduce or eliminate risk arising from fluctuations in interest or exchange rates and in the price of investments. The Investment Manager may enter into certain derivatives transactions, including, without limitation, forward transactions, futures, and options. The values of these investments may fluctuate significantly. By holding these types of investments there is a risk of capital depreciation in relation to certain Sub-fund assets. There is also the potential for the capital appreciation of such assets.

26.20.2 Derivatives may be used by each of the Sub-funds for the purposes of efficient portfolio management (including hedging). A Sub-fund may use derivatives for investment purposes only where this has been set out in the Investment Objective and Policy of the Sub-fund in Appendix 1. The use of derivatives may mean that the net asset value of a particular Sub-fund could be subject to volatility from time to time however, it is the ACD's intention that the Sub-funds, owing to the portfolio composition or the portfolio management techniques used, will not have volatility over and above the general market volatility of the relevant markets or their underlying investments and therefore it is not anticipated that the use of derivative techniques will alter or change the market risk profile of the relevant Sub-funds.

26.20.3 Efficient portfolio management enables the Sub-funds to invest in derivatives and forward transactions (including futures and options) in accordance with COLL using techniques which relate to transferable securities and approved money market instruments (as defined in COLL) and which fulfil the following criteria:

- (a) they are economically appropriate in that they are realised in a cost effective way;
- (b) they are entered into for one or more of the following specific aims;
 - (i) reduction of risk and/or;
 - (ii) reduction of cost and/or;
 - (iii) generation of additional capital or income for the Sub-funds with a risk level which is consistent with the risk profile of the relevant Sub-fund and the risk diversification rules in COLL (as summarised in Appendix 2).

26.20.4 There is no guarantee that the Sub-fund will achieve the objective for which it entered into a transaction in relation to efficient portfolio management. The use of financial derivative instruments may result in losses for investors.

26.20.5 Derivatives contracted with a single counterparty can increase the credit risk exposure of the Sub-fund while those listed on exchanges attract less credit risk exposure. The Sub-fund will be subject to the risk of the inability of any counterparty to perform its obligations. If a counterparty defaults, the Sub-fund may suffer losses as a result. Therefore, the Sub-funds aim to transact using derivatives listed on exchanges to minimise credit risk where applicable. Cash margin is posted in relation to exchange traded derivatives positions. The counterparty for any derivative securities held which are not listed on an exchange, would be an approved credit institution. Counterparty risk exposures will be aggregated across both financial derivative instruments and efficient portfolio management techniques where applicable. The exposure to any one counterparty in a derivative transaction must not exceed 5% in value of the property of the Sub-fund; this limit being raised to 10% where the counterparty is an approved credit institution.

26.20.6 The Sub-funds do not currently post or receive collateral since this is not required for the types of securities and derivatives being transacted. Should this situation change, a policy defining eligible collateral, applicable haircuts (and by this we mean the difference between the price at which derivatives are bought and sold in the market) and any additional restrictions deemed appropriate by the ACD will be established prior to any changes being implemented.

26.20.7 Direct and indirect operational costs and fees incurred in performing these transactions may be deducted from any associated revenue delivered to the Sub-fund. All such revenue, net of direct and indirect operational costs, will be returned to the Sub-fund. Such costs and fees shall be charged at normal commercial rates and shall not include hidden revenue. The entities to which such costs and fees are paid (and whether such entities are related to the ACD or depositary) will be disclosed in the annual report of the Company.

26.21 **Leverage**

26.21.1 The Sub-funds are permitted to use leverage in line with their ability to invest in derivatives and forward transactions. Leverage enables a Sub-fund to increase its risk profile, producing a multiplication effect on positive returns but also increases the potential for larger losses.

26.21.2 The Sub-funds have not granted any guarantees in relation to leveraging arrangements or any rights to reuse collateral.

26.21.3 Global Exposure is calculated using the commitment approach. The commitment approach converts the derivatives into the equivalent position in the underlying assets and therefore measures the incremental exposure provided via derivatives. In accordance with COLL, the

global exposure of the Sub-fund must not exceed 100% of the Sub-fund's net asset value after any applicable netting and hedging has been removed.

26.21.4 The maximum leverage of the Sub-fund is calculated using the "commitment leverage" methodology with confirmation of how to obtain the same contained within the Risk Management section of this prospectus.

26.22 Political Risk

26.22.1 The value of each Sub-fund may be affected by uncertainties such as international political developments, civil conflicts and war, changes in government policies, changes in taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investments may be made. For example, assets could be compulsorily re-acquired without adequate compensation.

26.22.2 Events and evolving conditions in certain economies or markets may alter the risks associated with investments in countries or regions that historically were perceived as comparatively stable becoming riskier and more volatile. These risks are magnified in countries in emerging markets.

26.23 Cyber Security

26.23.1 Cyber security risks may result in financial losses to the Company and the Shareholders; the inability of the Company to transact business with the Shareholders; delays or mistakes in the calculation of the Net Asset Value or other materials provided to Shareholders; the inability to process transactions with Shareholders or the parties; violations of privacy and other laws; regulatory fines, penalties and reputational damage; and compliance and remediation costs, legal fees and other expenses. The Company's service providers (including but not limited to the ACD and the Depositary and their agents), financial intermediaries, companies in which a Sub-fund invests and parties with which the Company engages in portfolio or other transactions also may be adversely impacted by cyber security risks in their own business, which could result in losses to a Sub-fund or the Shareholders. While measures have been developed which are designed to reduce the risks associated with cyber security, there is no guarantee that those measures will be effective, particularly since the Company does not directly control the cyber security defences or plans of its service providers, financial intermediaries and companies in which the Company invests or with which it does business.

26.24 Regular Savings Plan

26.24.1 If a shareholder starts making regular monthly investments with a view to saving for a specific objective, they should regularly review whether these investments will be sufficient to achieve their objective. Shareholders may not achieve their objective if they do not continue to invest regularly with a sufficient amount, or the investments do not appreciate sufficiently.

26.25 Investment in Collectives

26.25.1 The Sub-funds may make investments in collective investment schemes. Such investments may involve risks not present in direct investments, including, for example, the possibility that an investee collective investment scheme may at any time have economic or business interests or goals which are inconsistent with those of the Sub-fund concerned.

26.25.2 Unregulated collective investment schemes in which the Company may invest up to 20% of its scheme property may invest in highly illiquid securities that may be difficult to value. Moreover, many alternative investment strategies give themselves significant discretion in valuing securities. You should understand a Sub-fund's valuation process and know the extent

to which a Sub-fund's securities are valued by independent sources and liquidity constraints. Subject to COLL, the Company may invest in unregulated collective investment schemes (including hedge funds). Such investment in unregulated collective investment schemes carries additional risks as these schemes may not be under the regulation of a competent regulatory authority, may use leverage techniques and may carry increased liquidity risk as units/shares in such schemes may not be readily realisable.

26.25.3 The Company may bear the expenses and annual management charge of collective investment schemes which are held as part of the scheme property.

26.26 **Fixed Interest Securities**

26.26.1 Fixed interest securities (such as bonds) are particularly affected by trends in interest rates and inflation. If interest rates go up, the value of capital may fall, and vice versa. The value of a fixed interest security may fall in the event of a default or reduced credit rating of the issuer. The liquidity of many fixed interest securities issued by corporations or banks, in particular those issued by less well capitalised companies, is likely to be particularly reduced during times of market stress reducing the ability of the ACD to sell holdings at an acceptable price and in a timely manner.

26.27 **Financial Indices**

26.27.1 The Sub-funds may invest in securities embedding exposure to financial indices. Any such index must meet the regulatory requirements including being sufficiently diversified, having a clear objective, not relating to a single commodity or concentration of related commodities, being an adequate benchmark for the relevant market, having clear guidelines for the selection of index components, being replicable, having the calculation methodology pre-determined and published, rebalancing at an appropriate frequency, being subject to an independent valuation, not permitting retrospective changes, not permitting payments from potential index components for inclusion in the index, and having the index constituents and weightings published. The ACD has risk management procedures in place to ensure that any securities embedding exposure to a financial index meet all of the required regulations.

26.28 **Structured Products**

26.28.1 For the purposes of the FCA's rules structured products may be regarded as either transferable securities, collective investment schemes or derivatives depending on the product in question. The common feature of these products is that they are designed to combine the potential upside of market performance with limited downside. Structured products typically are investments which are linked to the performance of one or more underlying instruments or assets such as market prices, rates, indices, securities, currencies and commodities and other financial instruments that may introduce significant risk that may affect the performance of the Sub-funds.

26.28.2 However, in addition to providing exposure to the asset classes described in the investment objective, the intention is that the use of structured products in the context of the Sub-funds should assist with keeping the volatility levels of the Sub-funds relatively low.

26.29 **Investment In Real Estate Investment Trusts**

26.29.1 Real Estate Investment Trusts (REITs) and listed Infrastructure investments. Investment in REITS and listed Infrastructure are equity investments carrying similar equity investment risks to those of other equity investments but, through these holdings, may also be subject to adverse effects from weaknesses and/or fluctuations in real estate prices.

26.30 Focused Portfolios

26.30.1 Where a Sub-fund uses a ‘focused portfolio’ to achieve its investment objective it may invest in fewer investments or use fewer markets than other Sub-funds and consequently, the risk associated with a focused portfolio may be greater as fluctuations in the value of one investment may have a greater impact on the value of the Sub-fund as a whole. If the Sub-fund is a focussed portfolio appropriate risk warnings will be included in Appendix 1.

26.31 Property

26.31.1 Investments in property carries specific risks due to the inherently illiquid nature of property investment. Although the Sub-funds provide daily dealing, there may be times when the Sub-fund experiences a high level of redemption requests, or the valuation of properties becomes uncertain, if applicable. In these situations, it is the role of the ACD and depositary to treat investors fairly, which may delay investors being able to make redemptions requests or receiving proceeds from their redemptions.

26.31.2 Other risks that are specific to property investment include: -

a) Property Liquidity Risk

Immovable property is less liquid than other asset classes such as bonds or equities. Selling property can be a lengthy process which may mean that investors are not able to sell their investment when they want to, or they may receive a lower price than expected.

b) Property Transaction Charges

Property transaction charges are higher than those which apply in other asset classes. Investors should be aware that a high volume of transactions would have a material impact on Sub-fund returns.

c) Property Valuation Risk

Properties have unique properties, which makes them more complicated to value. Property valuation risk is a matter of judgment by an independent valuer and is therefore a matter of the valuer's opinion rather than fact.

26.32 Equity Securities Risk

26.32.1 Equities are securities that represent an ownership interest in an issuer. Equities can lose value rapidly, and typically involve higher (often significantly higher) market risks than bonds, money market instruments or other debt instruments. Fluctuation in value may occur in response to activities of individual companies, the general market, economic conditions, or changes in currency exchange rates.

26.32.2 Equities may be purchased in the primary or secondary market. Purchases in the primary market through initial public offerings may involve higher risks due to various factors including limited numbers of available shares, unfavourable trading conditions, lack of investor knowledge, and lack of operating history of the issuing Company. The secondary market is commonly referred to as the stock market and includes the London Stock Exchange, the New York Stock Exchange and other exchanges around the world.

26.33 Hedging Risk

26.33.1 Hedging may be used in connection with managing a Sub-fund. Any attempts to reduce or eliminate certain risks may not work as intended, and to the extent that they do work, they

will generally eliminate potentials for gain along with risks of loss.

26.33.2 Any measures that a Sub-fund takes that are designed to offset specific risks may work imperfectly, may not be feasible at times, or may fail completely.

26.33.3 Hedging involves costs, which could reduce investment performance.

26.34 Illiquid or Restricted Securities Risk

26.34.1 Certain securities may be hard to value or sell at a particular time due to market illiquidity or restrictions on their resale. This may include securities that are generally considered to be illiquid or restricted, due to conditions associated with the security, such as bond offerings under Rule 144A of the SEC and securities that represent a small issue, trade infrequently, or are traded on markets that are comparatively small or have long settlement times. Selling illiquid or restricted securities usually requires more time and costs are often higher.

26.35 Small and Mid-Cap Stock Risk

26.35.1 Stocks of small and mid-size companies can be more volatile and less liquid than stocks of larger companies. These risks may be greater in emerging and frontier markets. Small and mid-size companies often have fewer financial resources, shorter operating histories, and less diverse business lines, and as a result can be at greater risk of long-term or permanent business setbacks. Initial public offerings (IPOs) can be highly volatile and can be hard to evaluate because of a lack of trading history and relative lack of public information.

27 Liabilities of the Company and the Sub-funds

27.1 The assets of the Sub-funds belong exclusively to that Sub-fund so that each Sub-fund has segregated liability from other Sub-funds. As such, the assets of one Sub-fund shall not be used to discharge the liabilities of or claims against the umbrella company or any other person or body, or any other Sub-fund, and shall not be available for any such purpose.

27.2 While the provisions of the OEIC Regulations provide for the segregated liability between Sub-funds, the concept of segregated liability is relatively new. Accordingly, where claims are brought by local creditors in foreign courts or under foreign law contracts, it is not yet known how those foreign courts will treat such segregation of liability between Sub-funds.

27.3 Shareholders are not, however, liable for the debts of the Company. A shareholder is not liable to make any further payment to the Company after paying the purchase price of Shares.

28 Risk Management

28.1 Upon request by writing to the ACD at 1 Sovereign Court, Graham Street, Birmingham B1 3JR a shareholder can receive information relating to:

- a) the quantitative limits applying in the risk management of a Sub-fund of the Company;
- b) the methods used in relation to risk management; and
- c) any recent developments of the risk and yields of the main categories of investment in the Sub-fund.

29 Past Performance Data

29.1 Historical performance data for the each Sub-fund is set out at Appendix 7.

30 Fees and Expenses

30.1 General

30.1.1 The Sub-fund may pay out of the Scheme Property of the Sub-fund charges and expenses incurred by the Sub-fund, which will include the following expenses:

30.1.2 Value Added Tax is payable on these charges where appropriate.

be subject to the consent of the Depositary and either the consent of shareholders or the expiry of 60 calendar days' notice to shareholders.

31 Charges payable to the ACD

- 31.1 In payment for carrying out its duties and responsibilities the ACD is entitled to take out of each Sub-fund an annual management charge.
- 31.2 The annual management charge is based on the net asset value of each Sub-fund on each business day, accrues daily and is payable monthly in arrears on the last Dealing Day of each month. The current management charges are set out in Appendix 1.
- 31.3 The ACD is also entitled to reimbursement of all reasonable, properly vouched, out of pocket expenses incurred in the performance of its duties, including stamp duty and stamp duty reserve tax on transactions in shares.
- 31.4 The ACD's annual management charge is taken from income, unless otherwise stated in appendix 1. However, where the amount of income received by one of these Sub-funds is insufficient to pay the annual management charge plus all other expenses attributable or apportioned to the relevant Sub-fund, then some or all such charges and expenses may be charged against the capital of the relevant Sub-fund. This will only be done with the approval of the Depositary and may constrain Capital Growth.
- 31.5 The ACD may not introduce a new category of remuneration for its services unless the introduction has been approved by an extraordinary resolution of shareholders in the Company.
- 31.6 The ACD may not increase the current rate or amount of its remuneration payable out of the Scheme Property of the Company or the preliminary charge unless, not less than 60 days before the introduction or increase, the ACD gives notice in writing of the introduction or increase and the date of its commencement to all shareholders and has revised and made available the Prospectus to reflect the introduction or new rate and the date of its commencement.

32 Investment Manager's fees

- 32.1 The Investment Manager's fees and expenses (plus VAT thereon) are paid by the ACD out of its remuneration under the ACD Agreement.

33 Depositary's Fee

- 33.1 The Depositary receives for its own account a periodic fee which will accrue daily and is payable within seven days after the last Dealing Day in each month. The fee is calculated by reference to the value of each Sub-fund on the immediately preceding Dealing Day except for the first accrual which is calculated by reference to the first Valuation Point of each Sub-fund. The fee is payable out of the property attributable to each Sub-fund. The rate of the periodic fee is agreed between the ACD and the Depositary from time to time.
- 33.2 The current rate is 0.0375% on the first £50 million, 0.0275% on the next £50 million, 0.0175% on the next £50 million and 0.0075% on the balance, plus VAT in each case. Fees are subject to a minimum of £5,000 plus VAT per annum.

- 33.3 The first accrual in relation to any Sub-fund will take place in respect of the period beginning on the day on which the first valuation of that Sub-fund is made and ending on the last Dealing Day of the month in which that day falls.
- 33.4 The remuneration payable to the Depositary out of the property attributable to each Sub-fund for its services also includes transaction charges and custody charges. Transaction charges vary from country to country, dependent on the markets and the value of the stock involved and subject to a current range of £4.50 (UK) to £115 (Saudi Arabia) and accrue at the time the transactions are effected and are payable as soon as is reasonably practicable, and in any event not later than the last Dealing Day of the month when such charges arose or as otherwise agreed between the Depositary and the ACD. Custody charges again vary from country to country (usually between 0.006% (UK) and 1% (Saudi Arabia)) depending on the markets and the value of the stock involved and accrue and are payable as agreed from time to time by the ACD and the Depositary.
- 33.5 In addition to the fees and charges payable to the Depositary referred to above, the amount payable to the Depositary out of the property attributable to any Sub-fund by way of remuneration for its services may include charges in connection with its duties (or the exercise of powers conferred upon it by the OEIC Regulations or the FCA Regulations) referable to (but not limited to):
- a) custody of assets (including overseas custody services);
 - b) the acquisition holding and disposal of property;
 - c) the collection and distribution to shareholders of dividends, interest and any other income;
 - d) the maintenance of distribution accounts;
 - e) the conversion of foreign currency;
 - f) registration of assets in the name of the Depositary or its nominee or agents;
 - g) borrowings, stock lending or other permitted transactions;
 - h) communications with any parties (including telex, facsimile, SWIFT and electronic mail);
 - i) taxation matters;
 - j) insurance matters;
 - k) dealings in derivatives;
 - l) costs and charges relating to banking and banking transactions;
 - m) preparation of the Depositary's annual report;
 - n) taking professional advice;
 - o) conducting legal proceedings;

- p) the convening and/or attendance at meetings of shareholders; and
 - q) modification of the Instrument of Incorporation, Prospectus, and negotiation and/or modification of the Depositary Agreement and any other agreement entered into between the Depositary and its delegates.
- 33.6 The Depositary will also be paid by the Company out of the property attributable to each Sub-fund, expenses properly incurred in the performance of, or arranging the performance of, functions conferred on it by the Depositary Agreement, the FCA Regulations or by the general law.
- 33.7 The Depositary shall be entitled to recover its fees, charges and expenses when the relevant transaction or other dealing is effected or relevant service is provided or as may otherwise be agreed between the Depositary and the Company or the ACD.
- 33.8 On a winding up of the Company, the termination of a Sub-fund or the redemption of a class of Shares, the Depositary will be entitled to its pro rata fees, charges and expenses to the date of winding up, the termination, or the redemption (as appropriate) and any additional expenses necessarily realised in settling or receiving any outstanding obligations. No compensation for loss of office is provided for in the agreement with the Depositary.
- 33.9 Any value added tax on any fees, charges or expenses payable to the Depositary will be added to such fees, charges or expenses.
- 33.10 In each such case such expenses and disbursements will also be payable if incurred by any person (including the ACD or any associate or nominee of the Depositary or of the ACD) who has had the relevant duty delegated to it pursuant to the FCA Regulations by the Depositary.
- 33.11 Expenses not directly attributable to a particular Sub-fund will be allocated between Sub-funds.

34 Allocation of Fees and Expenses between Sub-funds

- 34.1 All the above fees, duties and charges (other than those borne by the ACD) will be charged to the Sub-fund in respect of which they were incurred but where an expense is not considered to be attributable to any one Sub-fund, the expense will normally be allocated to all Sub-funds pro-rata to the value of the net assets of the Sub-funds, although the ACD has discretion to allocate these fees and expenses in a manner which it considers fair to shareholders generally.

35 Shareholder Meetings and Voting Rights

The Company does not hold annual general meetings.

35.1 Requisitions of Meetings

- 35.1.1 The ACD may requisition a general meeting at any time.
- 35.1.2 Shareholders may also requisition a general meeting of the Company. A requisition by shareholders must state the objects of the meeting, be dated, be signed by shareholders who, at the date of the requisition, are registered as holding not less than one-tenth in value of all Shares then in issue and the requisition must be deposited at the head office of the Company.

The ACD must convene a general meeting no later than eight weeks after receipt of such requisition.

35.2 Notice of Quorum

35.2.1 Shareholders will receive at least 14 days' notice of a Shareholders' meeting and are entitled to be counted in the quorum and vote at such meeting either in person or by proxy. The quorum for an Adjourned Meeting is also two shareholders present in person or by proxy, however if a quorum is not present from a reasonable time from the time appointed for the meeting then one person entitled to be counted in a quorum shall be a quorum. Notices of Meetings and Adjourned Meetings will be sent to shareholders at their registered addresses.

35.3 Voting Rights

35.3.1 At a meeting of shareholders, on a show of hands every shareholder who (being an individual) is present in person or (being a corporation) is present by its representative properly authorised in that regard, has one vote.

35.3.2 On a poll vote, a shareholder may vote either in person or by proxy. The voting rights attaching to each Share are such proportion of the voting rights attached to all the Shares in issue that the price of the Share bears to the aggregate price(s) of all the Shares in issue at the date seven days before the notice of meeting is deemed to have been served.

35.3.3 A shareholder entitled to more than one vote need not, if they vote, use all their votes or cast all the votes they uses in the same way.

35.3.4 Except where the FCA Regulations or the Instrument of Incorporation of the Company requires an extraordinary resolution (which needs 75% of the votes cast at the meeting to be in favour if the resolution is to be passed) any resolution will be passed by a simple majority of the votes validly cast for and against the resolution.

35.3.5 The ACD may not be counted in the quorum for a meeting and neither the ACD nor any associate (as defined in the FCA Rules) of the ACD is entitled to vote at any meeting of the Company except in respect of Shares which the ACD or associate holds on behalf of or jointly with a person who, if the registered shareholder, would be entitled to vote and from whom the ACD or associate has received voting instructions.

35.3.6 "Shareholders" in this context means shareholders on the date seven days before the notice of the relevant meeting was deemed to have been served but excludes holders who are known to the ACD not to be shareholders at the time of the meeting.

36 Class and Sub-fund Meetings

36.1 The above provisions, unless the context otherwise requires, apply to Share Class meetings and meetings of Sub-funds as they apply to general meetings of shareholders. However, an extraordinary resolution will be required to sanction a variation of class rights.

36.2 The rights attached to a class or Sub-fund may not be varied without the sanction of a resolution passed at a meeting of shareholders of that Share Class or Sub-fund by a seventy-five per cent majority of those votes validly cast for and against such resolution.

37 Taxation

37.1 Taxation Of The Company

37.1.1 Income

37.1.1.1 The Company will be liable to corporation tax on its taxable income, less management and other allowable expenses, at the same rate as the lower rate of income tax (currently 20%). Dividends from UK resident companies and other UK authorised investment funds are not generally chargeable to corporation tax.

37.1.2 Capital gains

37.1.2.1 Capital gains accruing to the Company will be exempt from UK tax on chargeable gains.

37.1.3 Stamp duty reserve tax (“SDRT”)

37.1.3.1 Generally, there will be no Stamp duty reserve tax (SDRT) charge when Shareholders surrender or redeem their Shares. However, where the redemption is satisfied by a non-pro rata in specie redemption, then a charge to SDRT may apply.

37.2 Taxation Of The Shareholder

37.2.1 Income

37.2.1.1 Dividend distributions

37.2.1.1.1 It is anticipated that all distributions by the Sub-fund will be in the form of dividend distributions and that, accordingly, the Sub-fund will not pay any interest distributions.

37.2.1.2 UK resident individual shareholders

37.2.1.2.1 When the Sub-fund makes a dividend distribution in respect of income Shares (or is deemed to make such a distribution in respect of accumulation Shares) a UK resident individual shareholder will be treated for UK income tax purposes as having taxable income equal to the gross amount of the dividend distribution. For these purposes dividend income is treated as the top slice of an individual’s income.

37.2.1.3 Corporate shareholders within the scope of corporation tax

37.2.1.3.1 A dividend distribution made by the Sub-fund in respect of income Shares (or deemed to be made in respect of accumulation Shares) to a corporate shareholder which, whether UK resident or not, is within the charge to corporation tax in respect of its investment in the Sub-fund will, if the income of the Sub-fund is not wholly derived from UK dividends, be split into franked and unfranked parts. Very broadly, the unfranked part corresponds to such part of the Sub-fund’s gross income as does not derive from franked investment income. The franked part will be treated in the same way as a dividend from a UK resident company. The unfranked part will be treated as

an annual payment received after deduction of income tax at the lower rate from a corresponding gross amount and the corporate shareholder will be liable to corporation tax on it accordingly, but with the benefit of credit for, or repayment of, the income tax deemed deducted at source. If the corporate shareholder is not resident in the UK, the limit in Section 152(a) of the Finance Act 2003 on the extent to which its income is chargeable to corporation tax may be applicable.

37.2.1.3.2 Details of the proportions of distributions comprising franked investment income and annual payments will be shown on the tax voucher of the Sub-fund.

37.2.1.4 Non-UK resident shareholders

37.2.1.4.1 Generally non-UK resident shareholders are not subject to UK tax on dividend income pursuant to the provisions of any double tax treaty between the UK and the country in which they are resident or by the provisions of section 811 of the Income Tax Act 2007 or, in the case of non-resident companies, section 815 of the Income Tax Act 2007. Where the foreign withholding tax is applied on income received or on the redemption of units, this will generally be an irrecoverable tax expense for such.

37.2.1.5 Equalisation

37.2.1.5.1 Where income equalisation applies to income (but not accumulation) Shares, the part of the issue price of Shares which reflects accrued income and is returned to the shareholder with the first allocation of income following the issue is deducted from the shareholder's capital gains tax base cost in the Shares. In the case of accumulation Shares, the capital is not distributed but remains invested throughout.

37.2.1.6 UK legislation on Taxation of Savings Income

37.2.1.6.1 Any person regarded as a "paying agent" for the purposes of the Taxation of Savings Income Directive (EC Directive 2003/48/EC), as implemented or given direct effect in the UK, may be required to disclose details of payments of interest and other income (which may include distributions or redemption payments by collective investment funds) to shareholders who are individuals or residual entities to HM Revenue & Customs, who will pass such details to the Member State where the shareholder resides.

37.2.2 Capital gains

37.2.2.1 UK resident individual shareholders

37.2.2.1.1 An individual shareholder who is resident or ordinarily resident in the UK (including, in some cases, a shareholder who is only temporarily non-UK resident) will be liable to capital gains tax on any chargeable gain accruing to them on the disposal or deemed disposal (including conversion or redemption) of their Shares in the Sub-fund. They may also be entitled to set all or part of their gains against their annual capital gains tax execution.

37.2.2.1.2 UK resident or ordinarily resident individuals are subject to capital gains tax at rates which depend on the extent to which they have income falling within certain income tax bands.

- 37.2.2.2 Corporate shareholders within the scope of corporation tax
- 37.2.2.2.1 Subject to the possible application of the rules treating a shareholding in the Sub-fund as a loan relationship, a corporate shareholder which, whether UK resident or not, is within the charge to corporation tax in respect of its investment in the Sub-fund will be liable to corporation tax on any chargeable gain accruing to it on the disposal or deemed disposal (including conversion or redemption) of its Shares in the Sub-fund.
- 37.2.2.3 Non-UK resident shareholders
- 37.2.2.3.1 A shareholder who is neither resident nor ordinarily resident in the UK will not normally be liable to UK tax on capital gains accruing to them on the disposal or deemed disposal of their Shares in the Sub-fund, except where the holding is connected with a trade, profession or vocation carried on by them in the UK through a branch, agency or permanent establishment or they fall within certain anti-avoidance provisions relating to temporary non-UK residence.
- 37.2.3 Inheritance Tax
- 37.2.3.1 A gift by a Shareholder of their Shareholding in a Sub-fund or the death of a Shareholder may give rise to a liability to inheritance tax, even if the Shareholder is neither domiciled in the UK, nor deemed to be domiciled there under special rules relating to long residence or previous domicile in the UK. For these purposes, a transfer of a Shareholding at less than the full market value may be treated as a gift.
- 37.2.4 Shareholding in the Sub-fund treated as a loan relationship
- 37.2.4.1 Special rules apply to corporate shareholders within the charge to corporation tax which in certain circumstances could result in their Shares being treated for the purposes of the UK's corporate debt rules as rights under a creditor relationship of the corporate shareholder. A fair value basis of accounting would have to be used, for corporation tax purposes, as respects the deemed creditor relationship.
- 37.2.4.2 **The above statements are only intended as a general summary of UK tax law and practice as at the date of this Prospectus (which may change in the future) applicable to individual and corporate investors who are the absolute beneficial owners of a holding in the Sub-fund and their applicability will depend upon the particular circumstances of each investor. In particular, the summary may not apply to certain classes of investors (such as financial institutions). It should not be treated as legal or tax advice and, accordingly, any investor who is in any doubt as to their UK tax position in relation to the Sub-fund should consult their UK professional adviser.**
- 37.2.5 **US Foreign Account Tax Compliance Act 2010 and OECD International Tax Compliance**
- 37.2.5.1 Cross-border tax compliance is subject to international standards for the automatic exchange of tax information relating to US taxpayers (under FATCA) and taxpayers in CRS participating jurisdictions respectively.

- 37.2.5.2 In the UK, the International Tax Compliance Tax Regulations 2015 adopt the UK's reporting obligations under FATCA and CRS and consequently certain reporting obligations in relation to shareholders apply. Information from shareholders and prospective shareholders in order to ascertain their tax status may be required along with annual reporting to HMRC of information about the Shares held by shareholders who are, or who are controlled by a person or persons who are, tax resident in or citizens of the US or who are tax resident in a CRS participating country, including details of payments made to the shareholder (which may include payments arising from redemption of Shares).
- 37.2.5.3 Under FATCA, if the shareholder is a specified US person, a US owned non-US entity, non-participating FFI or does not provide the requisite documentation, the information on these shareholders and the Shares held by them will need to be reported to HMRC. HMRC will in turn report the relevant information to the IRS. Provided that these provisions are followed, the Sub-fund will not be subject to withholding tax under FATCA.
- 37.2.5.4 Under CRS, if the shareholder is tax resident in a CRS participating country or does not provide the requisite documentation, information on these shareholders will need to be reported to HMRC. As part of the automatic information exchange between the CRS countries, HMRC will report the relevant information to the responsible tax authorities. Within the EU, CRS has been implemented by Council Directive 2014/107/EU on the mandatory automatic exchange of tax information which was adopted on 9 December 2014 and became effective among most EU member states from 1 January 2016. As a consequence, CRS has been implemented and/or given direct effect into the law of the UK.
- 37.2.5.5 Shareholders and intermediaries should note that it is existing policy of the ACD that Shares are not being offered or sold for the account of US Persons or shareholders who do not provide the appropriate FATCA information or CRS information. Subsequent transfers of Shares to US Persons are prohibited. If Shares are beneficially owned by any US Person or a person who has not provided the appropriate FATCA or CRS information, the ACD may in its discretion compulsorily redeem such Shares.

38 Income Equalisation

- 38.1 Income equalisation, as explained below, may apply in relation to certain Sub-funds of the Company, as detailed in Appendix 1.
- 38.2 Part of the purchase price of a Share reflects the relevant Share of accrued income received or to be received by the Sub-fund. This capital sum is returned to a shareholder with the first allocation of income in respect of a Share issued during an accounting period.
- 38.3 The amount of income equalisation is either the actual amount of income included in the issue price of that Share or is calculated by dividing the aggregate of the amounts of income included in the price of Shares issued or sold to shareholders in an annual or interim accounting period by the number of those Shares and applying the resultant average to each of the Shares in question.

39 Winding up of the Company or Termination of a Sub-fund

- 39.1 The Company shall not be wound up except as an unregistered company under Part V of the Insolvency Act 1986 or under the FCA Regulations. A Sub-fund may only be terminated under the FCA Regulations.
- 39.2 Where the Company is to be wound up or a Sub-fund terminated under the FCA Regulations, such winding up / termination may only be commenced following approval by the FCA. The FCA may only give such approval if the ACD provides a statement (following an investigation into the affairs of the Company) either that the Company will be able to meet its liabilities within 12 months of the date of the statement or that the Company will be unable to do so. The Company may not be wound up under the FCA Regulations if there is a vacancy in the position of ACD at the relevant time.
- 39.3 The Company may be wound up or a Sub-fund terminated under the FCA Regulations if:
- 39.3.1 an extraordinary resolution to that effect is passed by shareholders;
 - 39.3.2 the period (if any) fixed for the duration of the Company or a Sub-fund by the Instrument of Incorporation expires, or an event (if any) occurs on the occurrence of which the Instrument of Incorporation provides that the Company is to be wound up or a particular Sub-fund terminated (for example, if the Share capital of the Company is below its prescribed minimum or (in relation to any Sub-fund) the Net Asset Value of the Sub-fund is less than £1,000,000, or if a change in the laws or regulations of any country means that, in the ACD's opinion, it is desirable to terminate the Sub-fund); or
 - 39.3.3 on the date of effect stated in any agreement by the FCA to a request by the ACD for the revocation of the authorisation order in respect of the Company or the Sub-fund;
- 39.4 On the occurrence of any of the above:
- 39.4.1 the parts of the FCA Regulations and the Instrument of Incorporation relating to Pricing and Dealing and Investment and Borrowing will cease to apply to the Company or the Sub-fund;
 - 39.4.2 the Company will cease to issue and cancel Shares in the Company or the Sub-fund and the ACD shall cease to sell or redeem Shares or arrange for the Company to issue or cancel them for the Company or the Sub-fund;
 - 39.4.3 no transfer of a Share shall be registered and no other change to the register shall be made without the sanction of the ACD;
 - 39.4.4 where the Company is being wound up, the Company shall cease to carry on its business except in so far as it is beneficial for the winding up of the Company;
 - 39.4.5 the corporate status and powers of the Company and, subject to the provisions of paragraphs 39.4.1 and 39.4.4 above, the powers of the ACD shall remain until the Company is dissolved;
 - 39.4.6 The ACD shall, as soon as practicable after the a Sub-fund falls to be terminated, realise the assets and meet the liabilities of the Sub-fund and, after paying out or retaining adequate provision for all liabilities properly payable and retaining

provision for the costs of termination, arrange for the Depositary to make one or more interim distributions out of the proceeds remaining (if any) to shareholders proportionately to their rights to participate in the Scheme Property of the Sub-fund. When the ACD has caused all of the Scheme Property to be realised and all of the liabilities of the Sub-fund to be realised, the ACD shall arrange for the Depositary to also make a final distribution to shareholders (if any Scheme Property remains to be distributed) on or prior to the date on which the final account is sent to shareholders of any balance remaining in proportion to their holdings in the Sub-fund. This section 39.4.6 shall apply to the Company in the event that the Company falls to be wound up as if references herein to the Sub-fund are to the Company as a whole;

- 39.4.7 As soon as reasonably practicable after completion of the winding up of the Company or the termination of a Sub-fund, the ACD shall notify the FCA;
- 39.4.8 On completion of a winding up of the Company, the Company will be dissolved and any money (including unclaimed distributions) standing to the account of the Company, will be paid into court within one month of dissolution;
- 39.4.9 Following the completion of the winding up of the Company or the termination of a Sub-fund, the ACD shall notify the Registrar of Companies and shall notify the FCA that it has done so; or
- 39.4.10 Following the completion of a winding up of either the Company or the termination of a Sub-fund, the ACD must prepare a final account showing how the winding up / termination took place and how the Scheme Property was distributed. The auditors of the Company shall make a report in respect of the final account stating their opinion as to whether the final account has been properly prepared. This final account and the auditors' report must be sent to the FCA, to each shareholder and, in the case of the winding up of the Company, to the Registrar of Companies within two months of the termination of the winding up.

40 General Information

40.1 Accounting Periods

- 40.1.1 The annual accounting period of the Company ends each year on 31 October (the accounting reference date). The interim accounting period of the Company ends each year on 30 April.

40.2 Income Allocations

- 40.2.1 Allocations of income are made in respect of the income available for allocation in each accounting period.
- 40.2.2 Distributions of income in respect of Income Shares for each Sub-fund are paid on or before the annual income allocation date of 31 December and on or before the interim allocation date of 30 June in each year.
- 40.2.3 If a distribution remains unclaimed for a period of six years after it has become due, it will be forfeited and will revert to the Sub-fund and if no longer in existence then to the Company.
- 40.2.4 The amount available for distribution in any accounting period is calculated by taking the aggregate of the income received or receivable for the account of the relevant Sub-fund in respect of that period, and deducting the charges and expenses of the Company or the relevant

Sub-fund paid or payable out of income in respect of that accounting period. The ACD then makes such other adjustments as it considers appropriate (and after consulting the auditors as appropriate) in relation to taxation, income equalisation, income unlikely to be received within 12 months following the relevant income allocation date, income which should not be accounted for on an accrual basis because of lack of information as to how it accrues, transfers between the income and capital account and any other adjustments which the ACD considers appropriate after consulting the auditors.

40.2.5 In relation to income Shares, distributions of income for each Sub-fund in which income Shares are issued are paid by cheque or BACS directly into a shareholder's bank account on or before the relevant income allocation date in each year. Where any income is to be paid out to a shareholder by cheque, a cheque will be sent at the shareholder's risk by first class post to the last address notified by the shareholder to the ACD. It will be deemed to be received on the second day after posting and the ACD will not be responsible for any delay except as a result of the ACD's negligence. If the mailing goes astray or is intercepted the ACD reserves the right to fully investigate what has happened and will have no obligation to remit a second payment to the shareholder until satisfied with the results of the investigation. Where any income is to be paid by direct credit, payment will be made into the bank or building society account last notified by the shareholder to the ACD. It will be deemed to be received on the income allocation date. The ACD will not be responsible if the payment is delayed except where as a result of the ACD's negligence. The ACD will have no obligation to remit a second payment to the shareholder until satisfied with the results of the investigation.

40.3 Annual Reports

40.3.1 Annual reports of the Company will be published within four months of each annual accounting period and half-yearly reports will be published within two months of each interim accounting period, however no half-yearly report will be published in the Company's first accounting period. The half yearly and annual reports can be found on the website: www.mgtsfunds.com. A paper copy of these are available free of charge upon request by writing to the compliance officer at 1 Sovereign Court, Graham Street, Birmingham B1 3JR.

40.3.2 The ACD shall provide the following information to Shareholders on an annual basis in the annual report sent to Shareholders or on a periodic basis if deemed necessary: (i) the percentage of a Sub-fund's assets which are subject to special arrangements arising from their illiquid nature; (ii) any new arrangements for managing the liquidity of the Sub-fund (iii) the current risk profile of the Sub-fund and the risk management systems employed by the Investment Manager to manage those risks; (iv) any changes to the maximum level of leverage that may be employed on behalf of the Sub-fund and any right of the reuse of collateral or any guarantee granted under the leveraging arrangement; (v) the total amount of leverage employed by the Sub-fund and (vi) any arrangement made by the Depositary to discharge itself of contractual liability.

40.4 Documents of the Company

40.4.1 The following documents may be inspected free of charge between 9.00 a.m. and 5.00 p.m. every Dealing Day at the offices of the ACD at 1 Sovereign Court, Graham Street, Birmingham B1 3JR:

40.4.1.1 the most recent annual and half-yearly reports of the Company;

40.4.1.4 the ACD Agreement between the Company and the ACD.

Any shareholder may obtain copies of these documents on request to the ACD.

40.4.2 The ACD may make a charge at its discretion for copies of documents.

40.5 Changes to investment strategy or investment policy, or both

40.5.1 Under the FCA Regulations, the ACD is required to determine which one of the following three categories the changes to Sub-fund operation fall within:

40.5.1.1 Fundamental events which change the nature of the Sub-fund or the basis on which the investor invested. For example, changes to an investment objective, its risk profile or something that would cause material prejudice to the investors would require investor approval.

40.5.1.2 Significant events which would materially affect an investor's investment, result in increased payments out of the Sub-fund, or could reasonably be expected to cause investors to reconsider their participation in the Sub-fund. Those should be notified pre-event to investors and in sufficient time to enable them to leave the Sub-fund, if they wish, before the change takes effect. 60 days minimum notice is required for these changes.

40.5.1.3 Notifiable events for which the ACD would decide when and how the investor should be notified, depending on the type of event. In these cases notification could be after the event.

40.6 Treating Customers Fairly and Acting to deliver good outcomes

40.6.1 The ACD seeks to ensure that its customers are treated fairly, and that it acts to deliver good customer outcomes at all times at all times. This objective is embedded in the operations and culture of the firm and is considered and delivered at every level and kept under review, which also ensures compliance with certain FCA Principles for Firms (as stated in PRIN 2.1 of the FCA's Principle for Business sourcebook). The ACD has the appropriate policies and procedures in place to ensure its customers are treated fairly, and that it acts to deliver good outcomes and details are available on the ACD's website and upon request.

40.7 Service of Notices

40.7.1 Where a notice is required to be served on a shareholder in writing it shall be provided to the registered address of the shareholder or in such other form as agreed with any shareholder.

40.8 Complaints

40.8.1 Complaints concerning the operation or marketing of the Company should be referred to the compliance officer of the ACD at 1 Sovereign Court, Graham Street, Birmingham B1 3JR in the first instance. If the complaint is not dealt with satisfactorily then it can be made direct to The Financial Ombudsman Service whose contact number is 0800 023 4567. Complaints can also be made online on the Financial Ombudsman website, whose contact number is 0800 023 4567. APPENDIX 1

Investment objectives and policy and other details of the Company

Investment of the assets of each of the Sub-funds must comply with the FCA Regulations and its own investment objective and policy. Details of each Sub-fund's investment objective and policy are set out overleaf together with other information including available Share Classes, charges, minimum investment levels and distribution dates. A detailed statement of the investment and borrowing restrictions applicable to the Company is contained in Appendix 2. Lists of the eligible securities and derivatives markets in which the Sub-funds may invest are contained in Appendices 3 and 4.

The name of appointed sub-advisers for each Sub-fund (where applicable) is set out in this Appendix 1.

MGTS QUALIS DEFENSIVE FUND (PRN: 996399)

Investment Objective

The objective is to provide capital growth, with the potential for income, over any 3-year period.

There is no guarantee that the objective will be achieved, and capital is at risk.

Investment Policy

The Sub-fund will provide exposure to a range of asset classes and investment strategies across any economic sector and geographic area to provide a defensive investment strategy.

The Sub-fund will include exposure to:-

- Bonds (which may include government, corporate, sub-investment grade and inflation linked)
- Shares
- Derivatives
- Alternative assets (such as property, infrastructure and commodities)

The Sub-fund will be fully invested, which means that although exposure to cash will vary depending upon prevailing circumstances it would not normally exceed 10% of the total value of the sub-fund. There may be times when the Investment Manager considers assets to be overpriced or that a period of instability exists which presents unusual risks. In such cases or during such periods, a higher level of liquidity may be maintained and, if considered prudent, the exposure to cash or near cash instruments held would be increased. Unless market conditions were deemed unusually risky, the increased exposure and period would not be expected to exceed 25% and six months respectively.

To provide the above exposure, a minimum of 70% of the sub-fund will be invested in active and/or passively managed collective investment schemes (which may include schemes operated by the ACD, associates or controllers of the ACD). The sub-fund may also invest directly (maximum of 30%) in transferable securities, such as shares and investment trusts.

The use of derivatives and/or hedging transactions are permitted in connection with the efficient portfolio management (managing the Sub-fund in a way that is designed to reduce risk or cost and/or generate extra income or growth or both). The Sub-fund may hold assets which embed derivatives that are used for investment purposes and efficient portfolio management.

The sub-fund will be actively managed. This means that the Investment Manager will use their expertise to select investments, rather than tracking a stock exchange or index.

Investment Strategy

In order to create a defensive investment strategy, the highest level of the Sub-fund's exposure under normal conditions will be to collective investment schemes that provide exposure to bonds or have an investment objective of providing a positive return in any market conditions over a specified time horizon, although this return is not guaranteed. Under normal circumstances this is expected to be at least 75%.

Performance Comparison

There are three types of benchmarks which can be used:

1. A target - an index or similar factor that is part of a target a fund manager has set for a fund's performance to match or exceed, which includes anything used for performance fee calculation
2. A constraint - an index or similar factor that fund managers use to limit or constrain how they construct a fund's portfolio
3. A comparator - an index or similar factor against which a fund manager invites investors to compare a fund's performance

The Sub-fund does not have a performance target and is not constrained by any index, IA sector or similar factor.

The IA (Investment Association) 0-35% Share Sector can be used as a comparator. The sector is considered appropriate for investors to use when comparing performance, as the asset allocation of the Sub-fund is similar to the asset allocation of other funds in this sector. The sector is not constructed as an index, therefore as funds enter or leave the sector the composition can change.

Summary profile of a typical investor

A typical investor needs to be able to understand and accept the objectives, policy, and risks of investing in the Sub-fund, including the “Risk Factors” set out in this document.

Typically, investors will be classed as retail or professional and will have received advice from an independent financial adviser, although other types of investors are permitted.

The objective and policy set out above should align with the objectives of the investors and their minimum timeframe for investment.

Clients' financial situation with a focus on ability to bear losses: Investors must be prepared to accept fluctuations in the value of capital and income and accept the risks of investing in shares. Investors may get back less than they invested as capital and income is at risk.

Clients' risk tolerance and compatibility of risk/reward profile of the product with the target market: The Key Investor Information Document (NURS KII/KIID) provides a risk rating which should be understood before making an investment. Although this risk rating provides a guide, investors should be aware that the rating is subject to change due to prevailing investment conditions.

Recommended Holding Period:

Investors should have an investment time horizon of at least three years.

The recommended holding period does not provide any guarantee that the objective will be achieved and investors should be aware that capital and the income distributed are at risk.

You should not invest if you:

MGTS QUALIS GROWTH FUND (PRN: 996400)

Investment Objective

The objective is to provide capital growth, with the potential for income, over any 7-year period.

There is no guarantee that the objective will be achieved, and capital is at risk.

Investment Policy

The Sub-fund will provide exposure to shares across any economic sector and geographic area.

The Sub-fund is expected to be fully invested in shares, which means that although exposure to cash will vary depending upon prevailing circumstances it would not normally exceed 10% of the total value of the Sub-fund.

There may be times when the Investment Manager considers stock markets around the world to be overpriced or that a period of instability exists which presents unusual risks. In such cases or during such periods, a higher level of liquidity or exposure to other assets may be maintained and, if considered prudent, the exposure to bonds, alternatives, cash or near cash instruments held would be increased. Unless market conditions were deemed unusually risky, the increased exposure and period would not be expected to exceed 25% and six months respectively.

To provide the above exposure, a minimum of 70% of the sub-fund will be invested in active and/or passively managed collective investment schemes (which may include schemes operated by the ACD, associates or controllers of the ACD). The sub-fund may also invest directly (maximum of 30%) in transferable securities, such as shares and investment trusts.

The use of derivatives and/or hedging transactions are permitted in connection with the efficient portfolio management (managing the Sub-fund in a way that is designed to reduce risk or cost and/or generate extra income or growth or both). The Sub-fund may hold assets which embed derivatives that are used for investment purposes and efficient portfolio management, although this would not materially affect the risk exposure of the Sub-fund.

The sub-fund will be actively managed. This means that the Investment Manager will use their expertise to select investments, rather than tracking a stock exchange or index.

Performance Comparison

There are three types of benchmarks which can be used:

1. A target - an index or similar factor that is part of a target a fund manager has set for a fund's performance to match or exceed, which includes anything used for performance fee calculation
2. A constraint - an index or similar factor that fund managers use to limit or constrain how they construct a fund's portfolio
3. A comparator - an index or similar factor against which a fund manager invites investors to compare a fund's performance

The Sub-fund does not have a performance target and is not constrained by any index, IA sector or similar factor.

The IA (Investment Association) Global Sector can be used as a comparator. The sector is considered appropriate for investors to use when comparing performance, as the asset allocation of the Sub-fund is similar to the asset allocation of other funds in this sector. The sector is not constructed as an index, therefore as funds enter or leave the sector the composition can change.

APPENDIX 2

1 Investment and borrowing powers of the Company

These restrictions apply to the Company.

1.1 Investment restrictions

1.1.1 The property of the Company will be invested with the aim of achieving its investment objective but subject to the limits on investment set out in the FCA Regulations and the Company's investment objective and policy. These limits apply to the Company as summarised below:

1.1.1.1 Generally the Company will invest in the investments to which it is dedicated including transferable securities, fixed interest securities, money market instruments, deposits, currencies and unregulated and regulated collective investment schemes and up to 100% of the scheme property can be held in deposits and cash, subject to compliance with the individual savings account regulations.

1.1.1.2 Eligible markets are regulated markets or markets established in the UK or in an EEA State which are regulated, operate regularly and are open to the public; and markets which the ACD, after consultation with the Depositary, has decided are appropriate for the purpose of investment of or dealing in the property of the Company having regard to the relevant criteria in the FCA Regulations and guidance from the FCA. Such markets must operate regularly, be regulated, recognised, open to the public, adequately liquid and have arrangements for unimpeded transmission of income and capital to or to the order of the investors. The eligible securities and derivatives markets for the Company are set out in Appendices 3 and 4.

1.1.1.3 New eligible securities markets may be added to the existing list only by the passing of a resolution of shareholders at a shareholders' meeting. If not, then the ACD and the Depositary will need to assess whether such an addition would be a significant event requiring shareholders to be notified of the change 60 days in advance, and for the Prospectus to reflect the intended change and the date of commencement, or if the addition is of minimal significance to the investment policy of the Company such that Shareholders will just be notified of the change, whether by immediate notification or in the next report for the Company.

1.2 Transferable securities

1.2.1 The Company may invest in transferable securities which are admitted to or normally dealt on Eligible Markets. Save as set out below and 1.3.1 up to 10% of the Scheme Property may be invested in transferable securities issued by any single body. However, up to 25% in value of the Company may be invested in scheme property issued by any single body in respect of covered bonds

- 1.2.2 A transferable security includes an investment falling within article 76 (Shares etc), article 77 (Instruments creating or acknowledging indebtedness), article 79 (Instruments giving entitlement to investments) and article 80 (Certificates representing certain securities) of the Regulated Activities Order.
- 1.2.3 An investment is not a transferable security if the title to it cannot be transferred, or can be transferred only with the consent of a third party.
- 1.2.4 In applying paragraph 1.2.3 to an investment which is issued by a body corporate, and which is an investment falling within articles 76 (Shares, etc) or 77 (Instruments creating or acknowledging indebtedness) of the Regulated Activities Order, the need for any consent on the part of the body corporate or any members or debenture holders of it may be ignored.
- 1.2.5 An investment is not a transferable security unless the liability of the holder of it to contribute to the debts of the issuer is limited to any amount for the time being unpaid by the holder of it in respect of the investment.
- 1.3 Government and public securities
- 1.3.1 Up to 35% of the property of the Company may be invested in Government and public securities issued by any one issuer.
- 1.4 Collective Investment Schemes
- 1.4.1 Up to 100% in value of the scheme property of the Company may be invested in units in other schemes. Investment may only be made in other collective investment schemes whose maximum annual management charge does not exceed 3%. The Company may invest in collective investment schemes, established anywhere, provided the investee scheme (1) satisfies the conditions necessary for it to enjoy the rights conferred by the UCITS Directive, as implemented or given direct effect in the UK; or (2) is a non-UCITS retail scheme; or (3) is a recognised scheme; or (4) is constituted outside the United Kingdom and the investment and borrowing powers of which are the same or more restrictive than those of a non-UCITS retail scheme; or (5) is a scheme not falling within (1) to (4) and in respect of which no more than 20% in value of the scheme property (including any transferable securities which are not approved securities) is invested.
- 1.4.2 In addition, the investee scheme must operate on the principle of the prudent spread of risk, must be prohibited from having more than 15% in value of its scheme property consisting of units in collective investment schemes and its participants must be entitled to have their units redeemed in accordance with the scheme at a price related to the net value of the property to which the units relate and determined in accordance with the scheme.
- 1.4.3 The Company may invest in units of collective investment schemes and pay any related charges or expenses for investing in such units. The Company may not invest scheme property in units of schemes managed, operated or administered by the ACD (or one of its associates).
- 1.5 Warrants and nil and partly paid securities
- Not more than 5% in value of the scheme property may consist of warrants.

- 1.6 Money market instruments
- 1.6.1 Up to 100% in value of the scheme property of the Company can consist of money market instruments which are admitted to or normally dealt on Eligible Markets subject to compliance with the individual savings account regulations. Up to 10% in value of the scheme property of the Company can be invested in money market instruments which are not approved securities or money market instruments which are liquid and have a value which can be determined accurately at any time.
- 1.6.2 Notwithstanding the above, up to 10% of the scheme property of the Company may be invested in money market instruments issued by any single body.
- 1.7 Deposits
- Up to 20% in value of the scheme property of the Company can consist of deposits with a single body. The Company may only invest in deposits with an approved bank and which are repayable on demand, or have the right to be withdrawn, and maturing in no more than 12 months.
- 1.8 Derivatives and forward transactions
- 1.8.1 Derivative transactions may be used for efficient portfolio management¹ only. This will not compromise the risk profile of the Company. Use of derivatives will not contravene any relevant investment objectives or limits.
- In broad terms, the FCA Regulations permit the following techniques:
- 1.8.2 Except as set out in 1.8.5 and 1.8.7 below there is no upper limit on the use of transactions in derivatives or forward transactions for the Company but they must fall under 1.8.3 and 1.8.4.
- 1.8.3 A transaction in a derivative or forward transaction must:
- (1) (a) if an OTC, be in an approved derivative; or

¹ Efficient Portfolio Management (“EPM”) transactions may involve options, futures or contracts for differences or forward transactions in accordance with the FCA Regulations. There is no limit on the amount of the property of a Scheme which may be used for these purposes, but there are various requirements which must be satisfied. The specific aims of EPM are:

- (a) the reduction of risk - to hedge against either price or currency fluctuation to avoid volatility in the market and limit the down side of the risk;
- (b) the reduction of cost; and
- (c) the generation of additional capital or income for a Scheme with a risk level which is consistent with the risk profile of a Scheme and the risk diversification rules laid down in the Collective Investment Schemes sourcebook.

The transaction must be economically appropriate for the purposes of EPM and any exposure must be fully covered by cash or other property sufficient to meet any obligation to pay or deliver that could arise

- (b) be in a future, an option or a contract for differences which must be entered into with a counterparty that is acceptable in accordance with the FCA Regulations, must be on approved terms as to valuation and close out and must be capable of valuation.

- (2) have the underlying consisting of any or all of the following to which the Company is dedicated:
 - (a) transferable securities;
 - (b) permitted money market instruments;
 - (c) permitted deposits;
 - (d) permitted derivatives;
 - (e) permitted collective investment scheme units;
 - (f) financial indices;
 - (g) interest rates;
 - (h) foreign exchange rates; and
 - (i) currencies.

- (3) be effected on or under the rules of an eligible derivatives market, it must not cause the Company to diverge from its investment objectives, must not be entered into if the intended effect is to create the potential for an uncovered sale of one or more transferable securities, money market instruments, units in collective investment schemes, or derivatives and must be with an approved counterparty.

Use of derivatives must be supported by a risk management process maintained by the ACD which should take account of the investment objectives and policy of the Company.

1.8.4 The ACD must ensure that the global exposure relating to derivatives and forward transactions held in the Company does not exceed the net value of the scheme property. The ACD must calculate the global exposure on a daily basis taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions. The ACD must calculate the global exposure of the Company either as:

- (1) the incremental exposure and leverage generated through the use of derivatives and forward transactions (including embedded derivatives), which may not exceed 100% of the net value of the scheme property; or
- (2) the market risk of the scheme property.

The ACD must calculate the global exposure of the Company by using either the commitment approach or the value at risk approach ensuring the selected method is appropriate taking into account the investment strategy, the types and complexities of the derivatives and forward transactions used and the proportion of the scheme property comprising derivatives and forward transactions.

Where the Company employs techniques and instruments including repo contracts or stock lending transactions in order to generate additional leverage or exposure to market risk, the ACD must take those transactions into account when calculating global exposure.

- 1.8.5 The exposure to any one counterparty in an OTC derivative transaction must not exceed 10% in value of the scheme property of the Company.
- 1.8.6 In applying the limits in 1.8, the exposure in respect of an OTC derivative may be reduced to the extent that collateral is held in respect of it provided the collateral meets each of the following conditions:
 - 1.8.6.1 it is marked-to-market on a daily basis and exceeds the value of the amount at risk;
 - 1.8.6.2 it is exposed only to negligible risks (eg. government bonds of first credit rating or cash) and is liquid;
 - 1.8.6.3 it is held by a third party custodian not related to the provider or is legally secured from the consequences of a failure of a related party; and
 - 1.8.6.4 can be fully enforced by the Company at any time.
- 1.8.7 Not more than 20% of the Company is to be put at risk in respect of an exposure from an OTC derivative transaction to a single entity or one or more such entities within a group, after taking into account any collateral received from that entity or group, both at individual level or group level.
- 1.8.8 In applying the limits in 1.8, OTC derivative positions with the same counterparty may be netted provided that the netting procedures:
 - 1.8.8.1 comply with the conditions set out in Section 7 (Contractual netting Contracts for novation and other netting agreements) of Annex III to the Banking Consolidation Directive; and
 - 1.8.8.2 are based on legally binding agreements.
- 1.8.9 All derivative transactions are deemed to be free of counterparty risk if they are performed on an exchange where the clearing house meets each of the following conditions:
 - 1.8.9.1 it is backed by an appropriate performance guarantee; and
 - 1.8.9.2 it is characterized by a daily mark-to-market valuation of the derivative positions and at least daily margining.
- 1.8.10 No agreement by or on behalf of the Company to dispose of property or rights may be made unless:
 - 1.8.10.1 the obligation to make the disposal and any other similar obligation could immediately be honoured by the Company by delivery of property or the assignment (or, in Scotland, assignation) of rights; and

- 1.8.10.2 the property and rights at 1.8.10.1 are owned by the Company at the time of the agreement.
- 1.8.11 1.8.10.1 and 1.8.10.2 do not apply to a deposit. They also do not apply where:-
- 1.8.11.1 the risks of the underlying financial instrument of a derivative can be appropriately represented by another financial instrument and the underlying financial instrument is highly liquid; or
- 1.8.11.2 the ACD or the Depositary has the right to settle the derivative in cash and cover exists within the scheme property which falls within one of the following asset classes:
- (i) cash;
 - (ii) liquid debt instruments (e.g. government bonds of first credit rating) with appropriate safeguards (in particular, haircuts); or
 - (iii) other highly liquid assets which are recognised considering their correlation with the underlying of the financial derivative instruments, subject to appropriate safeguards (e.g. haircuts where relevant).
- 1.8.12 In the asset classes referred to in 1.8.11.1 and 1.8.11.2, assets may be considered as liquid where the instruments can be converted into cash in no more than seven Dealing Days at a price closely corresponding to the current valuation of the financial instrument on its own market.
- 1.9 General
- 1.9.1 Underwriting and sub-underwriting contracts and placings may not be entered into for the account of the Company.
- 1.9.2 Cash or near cash must not be retained in the scheme property of the Company except in order to enable the pursuit of its investment objective; or for redemption of shares in the Company; or efficient management of the Company in accordance with its investment objective or for a purpose which may reasonably be regarded as ancillary to its investment objectives.
- 1.9.3 The aggregate value of investments in deposits and cash may be up to 100% of the value of the scheme property (to the extent that this would not affect its ability to be held within the stocks and shares component of a PEP or ISA).
- 1.9.4 Leverage is limited to overdraft use and the gross exposure from EPM techniques. Although the ACD may use derivatives for EPM, no collateral arrangements are currently in place and no asset re-use arrangements are in place.
- 1.9.5 The maximum leverage expressed as the ratio of the exposure to net asset value using the commitment method is 1.1:1.0 and using the gross method 3.3:1.0. *Please note that the maximum leverage under the gross method is theoretical and would only occur if market risk and currency risk were hedged across the entire Company whilst it was using the maximum borrowing facility of 10%. It is not anticipated that both market risk and currency risk would be simultaneously hedged and therefore the likely maximum leverage which would be used in*

normal circumstances using the commitment method is 1.1:1.0 and using the gross method 2.2:1.0.

2 Stock lending

2.1 The Company or the Depositary may enter into a repo contract, or a stock lending arrangement of the kind described in section 263B of the Taxation of Chargeable Gains Act 1992 but only if:

- a) all the terms of the agreement under which securities are to be reacquired by the Depositary for the account of the Company are in a form which is acceptable to the Depositary and are in accordance with good market practice including the right to recall any security lent and terminate any such agreement immediately and subject to the limits of the use of repo transactions under the ESMA Guidelines on ETFs and Other UCITS Issues;
